

Nautical Cloud Version 4.7.9 May 2023 Release Notes

Pricing

Support for pricing of an additional division at a set amount when the base division is added to the basket.

Support for fixed amount as a late entry fee.

Whats App Pre-Race Crew Number Declaration

Ability to send all boats a WhatsApp message and have them reply with their crew number on-board. This will logically let them know if all is good or if they have the wrong crew number, notify them of who is listed against their entry and link them to go online and submit the changes.

The race office has a new control to see who has declare, who hasn't and who is non-compliant. They can resent the message and manually add the crew number.

Sail No	Boat	Boat Mobile	Crew Registered	Crew Declared	Status	
1123	Test SL	+4445545454	0	2	●	Re-Send

Permissions

Ability to assign someone to only have access within the race office to review and approve checklists and certificate submissions. This is controlled in the portal credentials tab within online accounts.

Certificates Required for a Race

Ability to require a Person in Charge to have a valid certificate.

Race Documents

This has been renamed to Notice Board in the race office.

Currency

Ability to sell a race in a different currency than your system base currency.

Rating Authorities

ORC support for ToT General Purpose and ToT Winward/Leeward Certs

ORC and ORR GPH will display on Who's Entered information about the boat.

Race Requirements

This description box now supports Rich Text with an option to display the text within list of races to enter.

Fixes

Resolved issue with Auto Pay when in Race Office.

Resolved issue with apply a charge when the boat length charges after the original purchase.

Fixed an issue with MOCRA Certificates on a boat.

Known Issues

General support for document downloads using Firefox.
