1. COMPETITOR APP

We're excited to launch a brand-new app designed for competitors, giving them quick and easy access to all the races and regattas they're part of. With this app, competitors can:

- View the noticeboard and key race details, including date and time zone
- Complete important tasks like on-water check-ins, POB check-ins, and finish declarations
- See a live countdown for when check-ins open and receive notifications when they become available
- Get alerts when the race goes live and when their class start time is published

The Competitor App can be enabled in the Race Details section under the Competitor App tab. Here, you can select a check-in type (Crew No or Simple), set the check-in open time and date, and include a check-in note that competitors will see when completing the process. Additionally, there is a toggle called Set Entries to DNF When Checked In within this tab.

We've added a toggle in the Race Office that allows a notification to be sent, prompting competitors to complete their finish declaration once their boat has been marked as finished—either via tracking or by the race committee. This toggle can be found within the Finish Declarations Setup tab within the race details.

The App can be found by searching Nautical Cloud Competitor App on the Apple store or using the QR code below.

Please note that the Competitor App is currently supported only on iOS devices, but we are working on releasing an Android-compatible version soon.

Skippers can grant crew members permission to complete these tasks by selecting 'Allow App Permissions' within the Crew tab of the race entry.

MY CREW:
NAUTICAL CLOUD 300: WIND WISPER

Your Entry Crew Tasks Transactions

Race crew should be added to your race entry. If they are not listed, you need to go to your crew locker and invite them first. Once they have completed their emergency contact details and accepted your invite, you will see them listed here.

"PIC" stands for person in charge. "Person in Charge" is the person in charge on board designated under RRS 46. You are required to Nominate a PIC and a skipper or co-skippers. To remove a skipper or PIC from your crew list, you must first add another crew member and appoint them the PIC and/or Skipper.

2. PUBIC LINKS PAGE

We've added a new page within a race or regatta that displays all public links related to the event. These links will be available even before the event is published, allowing race organizers to include them in notice of races or on websites.

3. RACE OFFICER APP AUDIT

To enhance visibility and transparency, we've introduced an Audit Page in the Race Officer App Access section. This page provides a detailed log of key actions, including who finished a boat, who changed its status or finish time, and when these changes occurred. It records the user who made the change, the exact time it was made, as well as the previous and new status or finish time. This ensures a clear and reliable record of all updates, making it easier to track and verify important race data. This page can be found in the 'Race Officer App' within a race or Regatta.

4. WHO'S ENTERED AND RESULTS ENHANCEMENTS

We've completely redesigned the Who's Entered and Results pages to give them a modern look while improving readability. This includes updates to the layout, font, and spacing between cards, making it easier to navigate and find key information.

Retire comment: Main sail damage							

We've enhanced the appearance of the Who's Entered and Results pages. If a division name exceeds two lines or there are more than eight divisions, a dropdown menu will replace the tabs. This improves the page layout and makes it more user-friendly for viewers.

**Boats in red, italic font are not yet accepted because registration is incomplete. This can take up to an hour to refresh.*

5. SHOW NON DECLARED ON LIVE RESULTS

We've added a new toggle that highlights all finished boats in red if their finish declaration hasn't been completed. This feature has been introduced in the hope to get competitors to submit finish declarations on a timely manner.

1	HARBOR HORIZON 9347	Rating 1	Finished 04 Mar 2025 16:43:28*	Elapsed 06d 02:52:16*	Corrected 06d 02:52:16*	Finished

6. NOTICEBOARD ENHANCEMENTS

We've enhanced the noticeboard with two updates. Now, when uploading documents, the preset time will align with the race's time zone rather than the device's time zone. Additionally, 'Other Event Documents' can now be ordered when uploaded to the noticeboard.

7. INSPECTIONS

We've added an 'Inspection Status' dropdown to the Tasks and Crew tab within a race entry. Race Officers can now set the inspection status to one of the following options:

None required

Contact the Race Office to arrange an inspection (Alert)

Your inspection is scheduled but not complete (Alert)

You have follow-up tasks to complete following your inspection (Alert)

Inspection complete

This function can be enabled in the Entry Requirements section of the race details.

If the inspection status is set to Contact the Race Office to arrange an inspection, Your inspection is scheduled but not complete, or You have follow-up tasks to complete following your inspection, both the race entry and Race Officers will see an outstanding task on the race entry.

The screenshot shows the 'Tasks and Crew' tab in a race entry interface. At the top, there are navigation tabs: 'Entry Details', 'Divisions and Classes', 'Tasks and Crew' (selected), 'Transactions', 'Race Entry Answers', 'Communication History', 'Notes', and 'Finish Declaration'. Below these are 'Awards' and 'Tags'. The main content area is titled 'Outstanding Tasks' and includes a 'Send task reminder' button. A 'Show Overridden Alerts' button with a red '5' badge is also present. The task list shows one task: 'Contact the race office to arrange an inspection' with an 'Override' button. Below the task list is an 'Inspection Status' dropdown menu currently set to 'Contact the race office to arrange an inspection'.

8. SERIES AND REGATTA ENHANCEMENTS

We've added several new features to regattas. You can now send an automatic email when a competitor enters a regatta. Additionally, we've introduced World Sailing restrictions, including ID validation and the ability to set restrictions based on World Sailing categories. If the criteria aren't met, these will be flagged as outstanding tasks for competitors. We have also added the World Sailor report to Regattas in the Quick Actions.

9. YB TRACKER ENHANCEMENT

We have added a new toggle within the race entry called 'Don't send Finish Event to YB?'. When toggled on the finish time of this entry to YB tracker when it is finished in Nautical Cloud. This option is useful when the boat might be continuing past the finish line on an extending race that uses a different YB viewer but the same Yb serial number.

Sailed By Hugo Lawrence	Owner Hugo Lawrence
Primary Mobile +44 71234567 <small>*Sending notifications via sms</small>	Secondary Mobile +44 Eg: 1234567890 <small>*Sending notifications via sms</small>
Test1 support@nautical-cloud.com	Test 2
Yacht Club	YB Tracker Serial number
Don't send Finish Event to YB? <input checked="" type="checkbox"/>	Temporary AIS Name

[Update](#)

Competitors can now enter their personal YB serials in their boat details. Once entered, the serial will carry through to all parts of the race, including the fleet sheet. Boat owners can only enter serial numbers that meet YB criteria: the YB Tracker Serial must be 4 or 5 digits long, start with 2, 3, 4, 5, or 6, and contain only numbers.

10. SERIES PRICING

We've introduced a new way to price races, now you can bundle multiple races into a single series pricing option. Competitors can purchase a block of races in one go, making the entry process smoother. This will enter them into all races included in the pricing.

To set up series pricing:

- Enter a series and select the new "Entire Series Entry Pricing" option.
- Create the series pricing using the same structures as standard races—choose from free entry, a price list, or a flat rate for all entries.

We've also added a handy toggle. When enabled, if a competitor has already entered an individual race within the series, the cost of that race will be deducted from the total series price.

Series Entry Options

Entry Options Races Entries

* Name: Nautical Cloud Series

* Price Structure: Fixed Fee

Fixed Fee Amount: 1.00

* Entry Closing Time: 31/10/2024 16:50:21 (Australian Eastern Daylight Time / UTC +11)

* Publish Status: Draft

Credit any fees for individually purchased races

Update

11. TAGS AND SPECIAL AWARDS ENHANCEMENTS

You can now view the Special Awards results. Once a race is set to Live, the Special Awards button on the noticeboard will direct you to the results page, where race entries will be scored based on the award setup (Elapsed Time, Corrected Time, Correct Time, or Manual).

Special awards

1		WIND WHISPERER 1023	Skipper HUGO LAWRENCE	Owner HUGO LAWRENCE	Type Sigma 33
2		NAUTICAL NIRVANA 5720	Skipper HUGO RO LAWRENCE	Owner HUGO LAWRENCE	Type Sigma 33
3		MARINE MIRAGE 8156	Skipper HUGO LAWRENCE	Owner HUGO LAWRENCE	Type Sigma 33
4		HARBOR HORIZON 9347	Skipper HUGO RO LAWRENCE	Owner HUGO LAWRENCE	Type Sigma 33
5		SEA SPIRIT 4857	Skipper HUGO RO LAWRENCE	Owner HUGO LAWRENCE	Type Sigma 33

IRC Corrected

Scoring Method: Corrected Time

1		HARBOR HORIZON 9347	Skipper HUGO RO LAWRENCE	Owner HUGO LAWRENCE	Type Sigma 33	Corrected Time 06:02:52:16
2		NAUTICAL NIRVANA 5720	Skipper HUGO RO LAWRENCE	Owner HUGO LAWRENCE	Type Sigma 33	Corrected Time 06:02:52:39
3		SEA SPIRIT 4857	Skipper HUGO RO LAWRENCE	Owner HUGO LAWRENCE	Type Sigma 33	Corrected Time 06:02:52:42
4		MARINE MIRAGE 8156	Skipper HUGO LAWRENCE	Owner HUGO LAWRENCE	Type Sigma 33	Corrected Time 08:04:48:42
		WIND WHISPERER 1023	Skipper HUGO LAWRENCE	Owner HUGO LAWRENCE	Type Sigma 33	Retired

Tags will also be shown in the results. A new Tags tab allows you to view both live results and tag-specific results. Selecting a tag on a boat within the results will take you to the corresponding tag results.

When in a series, you can now select what tags are scored on the results within the class. You can do this by editing a regatta class and selecting 'Tags to Score'.

We've set a 25-character limit for tags to ensure they always display properly on the *Who's Entered* page and noticeboards.
